The AHWC Clinical Department offers a point of access into the health system specifically for vulnerable and unsheltered community members, who otherwise experience inequitable healthcare access. All our clinics are physician led. The nurse will practice autonomy and will formulate clinical decisions and development of a patient care plan in collaboration with the multidisciplinary AHWC Clinical teams.

PRIMARY CARE CLINIC (N2 CLASSIFICATION)

The primary care clinic provides primary care, chronic disease management and mental health related assessments, interventions, and treatment supports.

HIV PATHS POD OUTREACH CLINIC (N3 CLASSIFICATION)

The HIV PATHS pod provides in the moment care to individuals living with HIV who are experiencing barriers to care. Working in a micro team alongside a social worker and outreach worker the nurse will utilize the full scope of their role to support individuals in all areas of wellbeing.

MOBILE HEALTHCARE CLINIC (N3 CLASSIFICATION)

Travelling and parking near encampments, shelters, and bridges where the need is greatest, offering immediate and ongoing primary care treatment and prevention is the purpose of the mobile clinic.

RAPID ACCESS TO ADDICTION MEDICINE (RAAM) CLINIC (N3 CLASSIFICATION)

This will include mental health and addiction related assessments, interventions, and treatments.

The nurse should demonstrate an understanding of and respect for the histories, traditions, and cultures of Indigenous peoples, inclusive of First Nation, Métis, and Inuit Communities and Nations, including an understanding of the importance of decolonizing healthcare systems and spaces.

We encourage applications from Indigenous persons, those with personal and/or familial lived experience, and members of equity-seeking groups to identify as such in their application.

CLOSING DATE FOR APPLICATION: June 30, 2025

Please submit cover letter and resume to MonicaCyr@ahwc.ca
